**COMMENTS / CONCERNS:**

Please, No more new  
Subdivisions west of Calhoun Rd.  
Water is the issue, & our  
wells will be running on  
empty instead of slower each year.  
New Berlin already have  
springling restrictions to follow  
with new homes, new laws  
already in construction, we  
surely don't need more  
development.

**COMMENTS / CONCERNS:**

My husband and I would enjoy seeing something developed in that area, other than a gravel pit. A retail development such as a grocery store, shopping center, restaurants or a movie theater would be a wonderful change. A waterpark would be great as well. At present, there is nothing out here! We would like to see that change. Retail would be convenient because it is right off of the interstate 1-43.

*- Residential Development  
is the best use.  
We do not need more  
retail development on  
the west side of New Berlin*

*No industrial park, please.  
A park would be nice. (For children etc.)  
The city is not what it used to be. It no longer has its beauty, money, money, has let people build anywhere and anything.  
Please, let well alone. Enough is enough.*

**COMMENTS / CONCERNS:**

When visitors see this area they  
gasp with viewing the beauty. Please  
keep it as natural as possible and  
think it is one of the most beautiful  
spots in our state.

Also one concern is the water  
supply as you keep telling us we are  
going to have problems. Please do what  
you can to take care & not make more  
problems.

Thank you!

COMMENTS / CONCERNS:

Area needs to be a multi-use development.  
Business, Retail and multi-family development leveraging  
the topography of the area. With the current  
lakes from reclamation this makes for great  
opportunities for some imaginative and unique architecture.  
The access to the freeway and the north south  
route linking the southern lakes area with  
Waukesha should be valuable to many businesses  
bringing down New Berlin's tax base. Feel free  
to contact me at (262) 650-1300.
