Dear Ms. Jones,

RE: Tower Replacement

Per our recent phone conversation regarding We Energies need in replacing our existing 260' communication tower located at 3630 Cari Adam Drive, we are requesting your review of our completed application for a Conditional Use Permit.

The existing tower was replaced back in 1991 by Wisconsin Electric Power Company, d/b/a We Energies. We now need to replace it with a stronger tower because of the need to upgrade equipment and install additional antennas to the tower which is currently at its maximum capacity. We propose to build a new tower at the same height of 260' which will hold at least We Energies equipment and other future tenant capacity within the existing compound.

Please accept our application packet and place us on your next available Plan Commission Meeting scheduled on August 31st, 2016. You may reach me at 414-221-2806 with any questions. Thank you for your time and consideration.

Sincerely,

A handwritten signature in black ink, appearing to read "Robert Bokowski".
